

Newsletter May 2009

Hello Members

Firstly, this is just to let you know that we must all now start taking turns to cut the grass at the site.

It's the same people that do it all the time so please give them a break and pitch in. Thanks.

A few of the boys are going to the RC Hotel in Corfu to fly model planes soon. We wish them all the best and good luck! (Watch out for those scrolls)

Well it hasn't been a bad year so far - weather notwithstanding - and members have been managing to get out the field most flying days.

Iain Coaker is back in action after his hip replacement, both building and flying models. Iain built a Starduster-2 from plans, brought it up to the field this month, and it flew great. Welcome back Iain!!

We have had a couple of new members join the club this year, so good luck to you and happy flying from all of us. If you need any help just ask and we will be happy to help you.

A good few new models have been making an appearance at the field this year - both big and small. Some of the older models have been around for many years and still flying well. This shows that flying standards (and sticky tape) are getting better when they're still in one piece!

I hope you all got your SAA badges and cards. If not then ask Donald and he will sort you out.

Safety officer: If he tells you that you are doing something wrong listen to him. He is only doing his job and trying to help you.

If you need advice, ask him - that's what he's there for.

Till the next time.

Cheers & Beers,

Ricky McKnight
